### Where it may sit in the market:

Chain Bookstores; Classrooms; Department Stores; Indie Bookstores; Libraries; Merchandise potential;

### Comments:

The Tomato Clownfish is my favourite fish. Every time the opportunity arises to snorkel on the reefs in the South Pacific I search for this beautiful and unique fish.  
I imagine the picture book with vibrant colours as I see the purple/green anemone contrasting with the dark orange clownfish with the almost iridescent light blue stripe.  
Children will be captured by the challenge of overcoming fear as well as learning about symbiotic relationships.

Smilingly,

Steve Heron OAM
